Score: 93

Comments

Solid work team! You got done everything that was expected for sprint 1. The team seems to be very organized and communicating well. For the next sprint, I would really love to see the team log/track their work on GitHub. I would also expect to see functional code and unit tests that exceed the quality gate. To get a higher score for subsequent sprints, try to exceed sprint goals and stand out in a special way. Great job!
