10. Users will be able to send an anonymous message to a group. ✓ [Tim]

Bonus!

1. Chat history / Direct Message functionality
2. Character set support - English, Spanish, Chinese
3. UI overhaul

Demo time!

Overall Approach

1. Sprint planning
 - a. Met to discuss possible directions
 - b. Created Issues / voted for story points on project board
 - c. Selected a reasonably-sized collection of tasks
 - d. Divided based on preference/past experience
2. During the sprint
 - a. Held update meetings /posted standups to slack
 - b. Met to demo what was done
 - c. All members were available for questions
3. Retrospective
4. Ideas for final submission

Overview

Shoutouts:

- Thomas did a nice job making the DB fast. Pleasure to run test now!
- Tim did an awesome job updating the UI and keeping everything moving as scrum master
- Yanchi and Mitali did a great job with friends and statuses

Went well:

- We got our commitments merged and deployed early so we weren't working until the last minute.

Ideas for Sprint 4

1. Government Subpoena functionality
2. User creation from UI/Password
3. File transfer
4. Update Testing
5. Only allow a user to be signed into one client
 - a. Send a notification that someone tried to log in?
6. Search a particular message
7. Translation feature
